

SHELLY AUTOCARAVAN ALARM

Smart, low-power motorhome security — built around Shelly

Wireless BLE sensors • Cloud push alerts • Runs on 12 V • Open source core

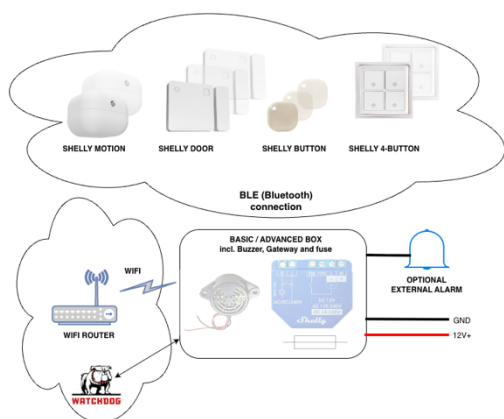

Peace of mind on the road

A complete, pre-configured alarm kit for autocaravans, motorhomes and campervans. Doors, windows and motion are watched by wireless Shelly BLU sensors; the gateway sounds a local buzzer and pushes a priority alert to your phone the moment anything triggers.

No subscription. No proprietary hub. You own the hardware and the configuration. The firmware is available as Open Source.

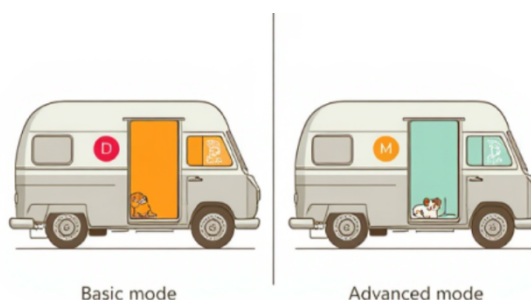

WHAT YOU GET

- Pre-flashed Shelly Plus 1 gateway in a wired box with buzzer & fused 12 V cable
- Configured BLU door/window and motion sensors — no pairing challenge
- Tough key-ring buttons: arm with a click, disarm with a long-click
- Cloud scenes pre-installed for push alerts (free Shelly Cloud added)
- Up to 1.5 h of online setup assistance with your kit

Design concept all models

Select your model based on your needs:

- **Basic** mode for both perimeter and inside motion
- **Advanced** to select perimeter only (Dog & Sleep)

Pricing — All-in, pre-configured kits

TIER	WHAT'S INCLUDED	BEST FOR	PRICE
Basic Base-kit <i>Gateway only</i>	• Shelly Plus 1 Gen3/4 pre-flashed • Box with buzzer + fused 12 V cable • Cloud scenes + 1 h online setup	DIY builders adding their own sensors — only the box and basic setup	€165
Model 1 <i>Basic — Small</i>	• Basic base-kit (see above) • 2× door/window sensors • 1× motion sensor • 2× tough key-ring buttons	Compact vans — one entry zone (Perimeter and motion together) Motion- and garage doors sensors	€320
Model 2 <i>Basic — Medium</i>	• Basic base-kit (see above) • 5× door/window sensors • 1× motion sensor • 3× tough key-ring buttons	Larger motorhomes, multiple lockers for many doors and windows — a more complete solution	€455
Advanced Base-kit <i>Gateway + dog/sleep mode</i>	• Everything in Basic Base-kit (above) • Advanced firmware setup with SLEEP/DOG mode • Up to 1.5 h online setup	Base for pet owners or heavy sleepers wanting perimeter only alarm as well as the “normal”.	€230
Model 3 <i>Advanced — Small</i>	• Advanced Base-kit • 2× door/window sensors • 1× motion sensor • 2× tough key-ring buttons	For dog owners, Like model 1 but including the “perimeter only” mode to allow for dogs in the van	€400
Model 4 <i>Advanced — Medium</i>	• Advanced Base-kit • 5× door/window sensors • 1× motion sensor • 3× tough key-ring buttons • Additional hour of support added	The complete model with 5 perimeter sensors (buy more as needed) and advanced dual mode protection. Additional setup support already included upfront	€550

Add-on devices <i>configured & added to any kit</i>	Door sensor €45 each	Motion sensor €52 each	Tough button / 4-button €45 each
---	--------------------------------	----------------------------------	--

HOW IT WORKS (by default) Single-click to arm all sensors › 10-second buzzer ramp up › 10 second last chance to exit long alert note › silent and watching.

Any trigger fires a 30-second local alarm and a priority push notification to your phone, overriding silent mode. Double, triple, or long-press a button to disarm. Trippl click special “perimeter only” mode in advanced edition.

OPEN & TRANSPARENT Built on Shelly Plus 1 and Shelly BLU devices — components you can buy anywhere. Pricing covers hardware at cost plus configuration time. No lock-in, no proprietary cloud. All source code available as Open Source for anyone.

Additional cost only cover development and support. Initial support included, additional support available on T&M basis
