

SHELLY BASED AUTOCARAVAN ALARM – COMMERCIAL EDITION

Smart, flexible, low-power motorhome security — built around Shelly smarthome devices

Wireless battery powered BLE sensors • Cloud push alerts to any number of phones • Runs on 12 V • Open source core

Peace of mind on the road

A complete, pre-configured alarm kit for autocaravans, motorhomes and campervans. Doors, windows and interior motion are watched by wireless Shelly BLU sensors; the gateway sounds a local buzzer and pushes a priority alert straight to your phone the moment anything is triggered.

No subscription. No proprietary hub. You own the hardware and the configuration to modify as you please.

WHAT YOU GET IN THIS COMMERCIAL EDITION

- Pre-flashed Shelly Plus 1 gateway in a wired box with buzzer & fused 12 V cable for easy installation anywhere in your van
- Pre-Configured BLU door/window and motion sensors in any number desired — no pairing or setting up for you to handle
- Tough key-ring buttons: configurable arm and disarm with a click, double-click, triple-click and long click. You decide!
- Cloud scenes pre-installed for push alerts (free Shelly Cloud)
- Up to 1.5 h of online remote setup assistance with your kit.

Pricing — All-in, pre-configured kits

TIER	WHAT'S INCLUDED	BEST FOR	PRICE
Base Simple <i>Gateway only</i>	• Shelly Plus 1 Gen3/4 pre-flashed • Box with buzzer + fused 12 V cable • Cloud scenes + 1 h remote online setup assistance	DIY builders adding their own sensors as needed	€100
Model 1 <i>Simple — Small</i>	• Base Simple kit included • 2× door/window sensors • 1× motion sensor • 2× tough key-ring buttons	Standard vans with 2 door sensors and one surveillance zone. Fundamental and safe	€200
Model 2 <i>Simple — Medium</i>	• Base Simple kit included • 5× door/window sensors • 1× motion sensor • 3× tough key-ring buttons	Larger motorhomes with multiple doors and three controllers included	€300
Base Advanced <i>Gateway + sleep mode</i>	• Everything in Base Simple • Advanced firmware with SLEEP mode • Up to 1.5 h online setup	Owners with pets that need perimeter only or wanting overnight perimeter addition	€150
Model 3 <i>Advanced — Small</i>	• Base Advanced kit included • 2× door/window sensors • 1× motion sensor • 2× tough key-ring buttons	Same as model 1 but with advanced dual configuration – for dog owners and hard sleepers wanting night alarm.	€250
Model 4 <i>Advanced — Large</i>	• Base Advanced kit included • 5× door/window sensors • 1× motion sensor • 3× tough key-ring buttons	The full model for family rigs needing sleep mode/ non-pet trigger – can be expanded with more devices as needed	€350

Add-on devices <i>Pre-configured & added to any of the kits</i>	Door sensor €25	Motion sensor €30	Tough button / 4-button €25 each
---	---------------------------	-----------------------------	--

HOW IT WORKS (DEFAULT SETUP - SIMPLE) Single-click to arm › 10+10-second buzzer ramp-up › silent and watching. Any trigger fires a 30-second local alarm and a priority push notification to the phone(s). Double, triple, or long-press a button to disarm (default setup). In sleep mode the double click activates this “perimeter only” stage

OPEN & TRANSPARENT Built on Shelly Plus 1 and Shelly BLU devices — European designed components available anywhere. Pricing covers hardware at cost plus configuration time. No lock-in, no proprietary cloud. At any time you may replace the commercial edition with the available Open Source edition and remain in full control.
